- Are able to read articles about business-related topics with little difficulty or with limited use of a dictionary

Course Requirements

This course is highly interactive. Classes are typically arranged as follows:

- Each student presents an oral report to the class using vocabulary and grammar previously studied. They respond to their classmates' questions before the instructor corrects mistakes and reviews difficult segments.
- The class reviews the previous lesson as a group.
- The class reads the new text, practicing new vocabulary and grammar structures, discussing the material, and forming complex sentences about the topic.
- The instructor may introduce supplementary material that enhances and expands on the material covered in the textbook lesson.

Students are expected to prepare thoroughly for each class session. This includes listening to audio materials on a daily basis, reviewing new grammar and vocabulary covered in class, memorizing new vocabulary prior to class, preparing all discussion topics, etc. Students are expected to participate actively in class, proactively attempting to incorporate new patterns into their speech. Students have daily homework assignments that must be returned to the instructor on time. In addition, there are biweekly quizzes and midterm and final exams.
