CREATE AND EXHIBIT YOUR OWN WORK. LEARN FROM THE BEST IN PRAGUE.

This program allows you to get hands-on in the medium of your choice—photography or new media and audiovisual studies. Photography students work in both analog and digital, attend a professional lighting seminar, and even have the chance to use the darkroom. New Media and Audiovisual Studies students design their own project then work with a faculty mentor to make it come to life. Outside of the classroom, take advantage of all that living in Prague has to offer. This affordable city will charm you and inspire you, all at the same time.

This program is unique for its pairing of students with individual **mentors that supervise, guide, and teach** each artist throughout the creation of their final work. Nowhere in the US can you find this **kind of one-to-one attention** and focus on the individual student.
