- Open to students from any college or university, with any level of Portuguese language study.

WHY STUDY BUSINESS IN BRAZIL?

BECAUSE YOU GAIN A NEW PERSPECTIVE ON BUSINESS

Your core course, *Socially Sustainable Business in Brazil*, uses the country's environmental and social diversity as a case study for exploring sustainability in three distinct realms: financial, environmental, and supply chain management. By the end of the term, you leave São Paulo with a sharpened business acumen attuned to responsible best practices.

BECAUSE YOU STUDY AT A PRESTIGIOUS UNIVERSITY

The program is hosted by Fundação Getúlio Vargas (FGV), an internationally renowned private university known for its excellence in business education. With triple international accreditation (including AACSB International, the same accreditation system that US business schools use), FGV plays a leading role in Brazil. Campus is right by Paulista Avenue, a major business center—making it easily accessible via public transport and filled with plenty to do.

BECAUSE YOU GET TO LIVE IN SÃO PAULO

São Paulo is a diverse and vibrant city, filled with countless things to do. Go to a weekend festival. Learn to make *feijoada* (black bean and meat stew). Find your favorite café in Perdizes, the neighborhood you call home. Hang out with friends at a *boteco* (corner bar). And if you're studying abroad in the spring, get ready for Carnival...

ACADEMIC SNAPSHOT

You take one core course, a Portuguese language class, and three electives to meet the total 15 to 18 recommended credits.

CORE COURSE

- Socially Sustainable Business in Brazil

ELECTIVES

- Direct-enroll in electives taught in English or Portuguese at FGV.

PORTUGUESE LANGUAGE

- All levels available, from absolute beginner to advanced.
- Can be taken as not-for credit as needed.
